DISCUSSION: EPA conducted a Site Inspection Prioritization (SIP) for the Harris Corporation site in Kennedale, Texas. The site scored a 14.00 using the PAscore model. This model provides the most conservative assessment of the site. Since the site scored below 28.5, The Site Assessment Section recommends that the site receive a No Further Remedial Action Planned under Superfund (NFRAP) Decision. The site has been referred to the Texas Natural Resource Conservation Commission for possible assessment under the state regulatory authorities.
